Projects

- **Hexalearnerpromo (Website):**
It is promotion website for learning management system using HTML, CSS and BOOTSTRAP. I have played the role UX designer as well as UI developer in this project and work on form data submission.
- **Attendance -system (Website):**
It is a Employee Attendance management system with various additional features like income tax calculator, leave management etc. It is a react project. I have played the role UX designer as well as UI developer in this project.
- **Login Page (My very First Webpage) :**
It is a login page for users, they can also change their password by clicking on forgot password link. In case they do not have an account they can create an account. It is just a frontend project, using HTML, CSS and JavaScript.
